## Product description

The compact and powerful air purifier LUFT™ AP40 Pro combines clear design, exceptional air purification, quiet operation, and energy efficiency. The construction of the device ensures maximum air throughput and a optimized filtration. The 360° multi-layer filter filters pollutants such as fine dusts (PM2.5 and smaller), pollen and acarid allergens, pathogens such as bacteria and mold spores, cigarette smoke, exhaust fumes (also NO2), chemical vapors (Formaldehyde, Toluol, n-Butane, VOC, etc.) and odors from indoor air. The central Easy-Touch control panel provides function modes such as automatic mode, level 1/2/3, turbo and night mode at one's fingertip. Additional features such as a timer function, child lock, filter status and customization of the automatic mode can be operated via the corresponding Ideal Air Pro app. On average, the 360° filter lasts for 12 months depending on the intensity of the usage.
